

2018 USCLC Annual Workshop

Thursday, February 15, 2018
Hilton San Diego Bayfront, Indigo Ballroom
San Diego, CA

General Information

Activity Description

Interactive workshop focused on topical areas of research and practice in cutaneous lymphoma. The aim of the workshop is to review the current state and to pave the road to the new developments in the basic, translational and clinical research in cutaneous lymphomas and other lymphoproliferative disorders.

Our topic this year is: *Assessing and Improving Quality of Life for Patients with Cutaneous Lymphoma*

Health-related quality of life (HRQL) is a multidomain concept representing the patient's general perception of the effect of illness and treatment on physical, psychological, and social aspects of life. This workshop will help participants distinguish various ways to assess HRQL in patients with cutaneous lymphoma and more adeptly improve the effects of illness and treatments on their quality of life. As in 2017, the USCLC workshop we will use audience response devices to engage the physicians.

Learning Objectives

1. Define health-related quality of life and its dimensions.
2. Compare and contrast health-related quality of life instruments and their applications.
3. Devise new treatment strategies to manage skin-related and systemic symptoms in patients with cutaneous lymphoma.
4. Formulate new approaches to address psychosocial issues in patients with cutaneous lymphoma.

Target Audience

Dermatologists, medical oncologists, radiation oncologists, pathologists, transplantation specialists, and other clinicians who are involved in the diagnosis and treatment of patients with the cutaneous manifestations of cutaneous T-cell lymphoma.

Accreditation and Credit Designation Statement The Southern Alliance for Physician Specialties CME is accredited by the Medical Association of Georgia to provide continuing medical education for physicians.

The Southern Alliance for Physician Specialties CME designates this live activity for a maximum of 7 *AMA PRA Category 1 Credits*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
