

2019 USCLC Annual Workshop

Thursday, February 28, 2019

Washington, DC

General Information

Activity Description

Interactive workshop focused on topical areas of research and practice in cutaneous lymphoma. The aim of the workshop is to review the current state and to pave the road to the new developments in the basic, translational and clinical research in cutaneous lymphomas and other lymphoproliferative disorders.

Our topic this year is: *Update on non-MF Cutaneous T-Cell Lymphomas*

Target Audience

Dermatologists, medical oncologists, radiation oncologists, pathologists, transplantation specialists, and other clinicians who are involved in the diagnosis and treatment of patients with the cutaneous manifestations of cutaneous T-cell lymphoma.
